KOWTRAPU KAVYA SRI

AUTOMATION ENGINEER

Hyderabad, Telangana, India | kowtrapuk@gmail.com | 6281121154 | LinkedIn | GitHub

PROFESSIONAL SUMMARY

QA professional with 1.5 years of experience in software testing, including manual, functional, regression, integration, system, and UAT testing. Documented 20+ defects with reproducible steps and expected versus actual results, accelerating developer resolution and improving traceability. Hands-on exposure to TypeScript-based automation and AI application testing using Promptfoo. Experienced in exploring web applications, identifying issues, and validating application workflows. Interested in AI testing, LLM evaluation, and improving the quality and reliability of AI applications.

PROFESSIONAL EXPERIENCE

Associate Automation Engineer, Divami Design Labs Private Limited

Apr 2025 - Nov 2026|Hyderabad

- Authored and maintained 100+ test scenarios and test cases based on application requirements across key web application workflows.
- Executed full-cycle functional, regression, integration, system, and UAT testing across application workflows, driving consistent release-readiness sign-offs.
- Owned defect documentation for 20+ defects with reproducible steps and expected versus actual results, accelerating developer resolution and improving traceability.
- Automated 40% of regression test cases using TypeScript and Playwright, cutting manual regression effort and improving test repeatability.
- Developed reusable TypeScript test steps and scripts, standardizing automation practices and reducing test script maintenance time.
- Evaluated prompt-driven AI responses using Promptfoo, validating response relevance, correctness, and consistency across multiple test scenarios.
- Partnered with developers and QA engineers to clarify requirements and investigate application issues, driving on-time release cycles.

EDUCATION

B.Tech in Computer Science and Engineering

KKR & KSR Institute of Technology and Sciences | 2021–2025

Intermediate: 92% | SSC: 95%

CERTIFICATIONS & LEARNING

Introduction to SQL - Simplilearn

Python - Coursera

TECHNICAL SKILLS

- Manual Testing ,
- Automation Testing
- AI Testing
- Technical Fundamentals
- Tools

Manual Testing:

- Functional Testing
- Regression Testing
- Integration Testing
- System Testing
- UAT
- Smoke Testing
- Exploratory Testing
- Test Case Design
- Defect Reporting

Automation Testing:

- TypeScript
- Playwright
- Test Scripts
- Reusable Test Steps

AI Testing:

- Promptfoo
- Prompt and Response Evaluation
- AI Output Quality Checks

Technical Fundamentals:

- REST API Testing Concepts
- JSON
- SDLC
- STLC

Tools:

Jira

PROJECT EXPERIENCE

GenHRX (Kapwa Platform) — Manual Testing

Explored and manually tested key application modules, including Home, Marketplace, Chat, Profiles, Notifications and provider dashboards.

Checked account switching, page navigation and available content workflows.

Reviewed provider dashboard sections, including Offerings, Posts, Profile, Insights and Team.

Observed issues such as videos not loading, outdated content and application connection errors.

Documented observations about application behavior and potential usability improvements.

GenHRX- Kapwa- AI Testing Practice — Promptfoo

Gained hands-on exposure to evaluating prompt-driven AI responses using Promptfoo.

Explored response quality checks against expected criteria.

Learned about evaluating response relevance, correctness and consistency, where applicable to the tests performed.

Interested in expanding knowledge of LLM evaluation, prompt variations and repeatable AI regression testing.
